September 2018

## From the East: **Wor. Luis J. Montero**

September is here and we are at labor in many important events. The Officers have been buzzing in the beehive preparing for events to come. While I was away, Brother **Jesse Solis-Jacques**, our Senior Warden, took good care of the Lodge and did a fantastic job! This gave me the opportunity to spend some time with family and a chance for reflection.

I am very thankful the hurricane Lane missed my vacation destination, O'ahu, Hawaii, and was downgraded to a tropical storm. The hurricane may have passed by the islands but Hawaii is still feeling the storm's aftereffects as residents recover from days of heavy rain and remain on the lookout for even more showers. Some residents had to be evacuated, a number of roads were closed by flooding and landslides. In the midst of all the chaos that surrounded my existence, I was comforted by being with my wife, **Wendy**, and my brother and his family.

This event made me reflect on my journey in Masonry. I have had some triumphs but also had my share of failure. For what is failure, but a lesson to be learned? A teachable moment, indeed, because to reach success, one must persevere and get up again; dust yourself off and pursue your journey.

And a new journey has just begun for Brother **Richard "Smokey" Stover**, our newest Fellow Craft Mason. Congratulations, my Brother! I am certain your journey in Masonry will be full of Light.

I would like to invite the Brethren to bring their families to our Stated Meeting dinner on September 6th. This gives us the opportunity to be close to our loved ones and gives us an opportunity to know them as well. A family of friends and brothers makes for a good Stated Meeting all around.

Then, on September 13<sup>th</sup>, the officers will meet to practice for the upcoming Third Degree for Brother **Alexis Baloji**. All Master Masons are invited to attend practice sessions and get involved in the ritual. Practices are directed by Wor. **Eric Hixson** and are always fun and full of information. Sessions start at 7pm at the Masonic Temple on J Street. I promise you a great learning experience!

Speaking of the Temple, September 15<sup>th</sup> marks the Centennial Celebration of the laying of its cornerstone. See page 6 for more information. Please plan to attend as this will be a historical and memorable event.

Officers School of Instruction will be on September 19<sup>th</sup> at 7pm. All Master Masons are encouraged to attend. On September 20<sup>th</sup>, we will have Brother **Alexis Baloji's** Third Degree. September 27<sup>th</sup> brings our Constitution Observance Night. Please bring your family to the event and be ready to have a great time.

# From the West

Bro. Jesse Solis-Jacques • Senior Warden

Brethren, we would like to congratulate our newest Fellow Craft, Brother **Richard "Smokey" Stover**. It was an excellent ceremony. I would like to thank all of those in attendance and those who participated. Also, we would like to thank Bros. **Bob Taylor** and **Wally Clark** for providing another amazing meal. The special dessert prepared by Mrs. **Patty Taylor** was so delicious. I wanted to eat the whole tray! Thank you all again for your time and hard work. We look forward to also having Brother Stover continue on his journey as a Mason and enjoy being part of our family at Washington Lodge No. 20.

Looking ahead, we also take pleasure to remind all Master Masons of the upcoming raising ceremony for Brother **Alexis Baloji** on September 20, 2018. Please see our masonic calendar for details.

For the month of September, we prepare for Fall and with this in mind, I would like to introduce to you an old friend of mine. His name is Failure. You see, whenever I fail at something, Failure teaches me how to fall down properly, just enough to find a way to get back up again. A few years ago, Failure told me that if I was already Perfect, that I would never learn how to master courage or have the opportunity to exercise my innovative muscle. Sometimes I tell Failure to just stop visiting me and leave me alone. I try to avoid him at all costs; but Failure never fails to knock on my door or call me — trying endlessly to convince me that he was my best friend. If he was truly my best friend, why would he always make me feel so miserable and defeated, worthless and helpless or make me to just simply want to give up and never try again?

Years later, I met Failure's twin brother. His name is Success. I was really confused at this point, as you can imagine. Success told me all the great memories and stories he had with Failure growing up, that without him, Success would not be who he is today. Tears fell from his eyes as Success told me his stories. I was starting to understand how much Failure means to Success and I felt maybe I was a bit tough on Failure and maybe I should give him another chance. I felt inspired, empowered, and motivated. I wanted to meet Failure again and bring him along my journey through life so I can enjoy many wonderful stories like Success did.

Failure and I finally met again soon thereafter, and the first thing he told me when we shook hands was, "Are you ready to learn? It's going to be a roller coaster ride but we will have fun accomplishing our way to Success." I took a deep breath and was ready to make the decision to accept Failure into my life and realize that he is my best friend.

My journey began with Failure and what I've learned was that meeting Success is 100% certain. He is simply waiting for me to arrive. I also remember what Success once told me about his twin brother Failure—that without Failure, Success would not be who he is today.

Brethren, I felt this was insightful to share, especially when life changes, season changes, relationship changes, and other circumstances. Sometimes with change, Failure sees this as an opportunity to teach us something. As we merge into the Fall Season and prepare for the end of the year, we encourage that we embrace Failure that we are destined to face regularly and that it is a requirement to meet Success!

"We the people, in order to form a more perfect union..." Words that will forever mark the history of this great nation and the topic of this month's activities. September is when we celebrate and remember this country's founding and children go back to school. Hopefully, to enrich their minds that will be the catalyst to achieve their dreams and to continue the efforts of those who have come before them to achieve a more perfect union.

We - as Masons - are always learning.

It never ceases to amaze me each time I pick up that blue book, or some of my old ciphers with notes scribbled in them, and the nuggets of new meanings and provoked thoughts that come to mind when reading those words. It illustrates how language, maybe even written some time ago, can have new and relevant meaning today.

In some instances, you might find references to David and Goliath or even a nugget of history. I used the preamble to the Constitution of the United States to open this article for that reason. Look at the parallels that

document mirrors with Freemasonry. The Constitution of the United State is broken up into four sections. Three of which represent the order of government - a Legislative, Judicial and Executive. Consider how that mimics our Lodge with three principal officers - the Master, the Senior and Junior Wardens.

Coincidence? Maybe. But knowing a little bit about our past helps to understand the future. We have been tasked with forming a more perfect union because the Constitution was never meant, at that moment in time, to be perfect. It was striving for perfection where a future set of Americans would continue that pursuit. For us, on September 15th, we will be able to observe what life was like 100 years ago.

In 1918, the Great War (World War I) was coming to a close and the Boston Red Sox won the World Series for the last time until 2004. Daylight savings time, proposed by none other than Most Wor. Benjamin Franklin, was officially enacted by Congress in March of that year. The RMS Carpathia, a ship known to have rescued the survivors of the Titanic sinking 6 years prior, is torpedoed off the coast of Ireland. President Woodrow Wilson would become the first sitting President of the United States to travel to Europe while holding office.

Think about those events for a second. Think about how strange it would be for a sitting President today to never have travelled to Europe? Think about the technology involved, or lack thereof, where things we all consider to be normal, were never even a thought.

This coming month we get an opportunity to go back in time. It will give us all a chance to understand the meaning of *carpe diem* (seize the day). Finally, let this reflection into the past allow us to spread Liberty and the cement of Brotherly Love to do what we can to write the history for the future in an effort to achieve that more
